
PRELICENSING EDUCATION

Supplemental Educational Outline **Fire & Casualty, Life, and Personal Lines** **Code and Ethics Training**

Revised 12/23/2004

OVERVIEW

Section 1677 of the California Insurance Code requires that the license examination be of sufficient scope to satisfy the Insurance Commissioner that an applicant has sufficient knowledge of insurance, insurance laws and code.

For purposes of the prelicensing code and ethics curriculum, the following outline provides the applicant with additional license training, as well as a reinforcement of existing license training on what is contained in the California Insurance Code (CIC) and the California Code of Regulations (CCR) as it pertains to code and ethics training. Sufficient knowledge of these items, in addition to the items listed on the Fire & Casualty, Life and/or Personal Lines Broker-Agent Educational Objectives, is what a typical new license agent needs to know at the start of one's career. There are fourteen items listed on the outline attached. A sample of these items is as follows:

- * Conduct of a licensee
- * Senior Insurance
- * General Provisions

SUPPLEMENTAL OUTLINE

The Supplemental Outline is statements of what an applicant needs to know about the California Insurance Code, the California Code of Regulations, and how well to demonstrate sufficient knowledge to pass the code and ethics portion of the licensing examination.

THE EXAMINATION

The code and ethics portion of the examination questions are based on the Educational Objectives and the Supplemental Outline. Mastery of both the Educational Objectives and the Supplemental Outline will aid in your success on passing the examination.
